

International Workshop on Logic and Philosophy of Knowledge, Communication and Action

LogKCA-10

Donostia - San Sebastián (Spain), November 3-5, 2010

First Announcement

This Workshop seeks to examine and explore issues concerning the logical and philosophical aspects of knowledge, communication and action in an integrated view. Perspectives are sought from those engaged in the fields of logic, history and philosophy of logic, logic applied to artificial intelligence and cognitive systems, general epistemology, social epistemology, belief theory, communication theory, discourse theory, formal semantics, pragmatics, philosophy of action, and history of philosophy connected with those topics. These disciplines are indicative only as papers are welcomed from any area, in which logic and philosophy of KCA play a part.

LECTURES

Sergei ARTEMOV (City University of New York)
Arnon AVRON (School of Computer Science, Tel Aviv University)
Carlos MOYA (University of Valencia)
Jaroslav PEREGRIN (University of Hradec Králové, Czech Republic)

TUTORIALS

Alexandru BALTAG (Computing Laboratory, Oxford University)
Patrick BLACKBURN (CNRS-Loria, France)
Eric PACUIT (Center for Logic and Philosophy of Science, Tilburg Univ.)
John SYMONS (University of Texas, El Paso)

Program Committee

X. Arrazola (Donostia, Secretary), R. Bosch (Oviedo), M. Colombetti (Trier),
J. Ezquerro (Donostia), J.M. Larrazabal (Donostia), J. Martínez (Barcelona),
E. Rast (Lisboa), F. Salto (Leon), S. Sequoiah-Grayson (Oxford),
M. Vazquez (La Laguna)

Organized by:

Sponsored by:

MINISTERIO DE CIENCIA E INNOVACIÓN
EUSKO JAURLARITZA

Contributed papers

Contributed papers (25-30 minutes) may be presented on any of the following themes:

Applied logics of knowledge, knowledge acquisition and transmission, knowledge in a social setting.

Logics of belief, belief formation and justification, belief update and revision, rationality problems.

Philosophy of information.

Logics of communication.

Non-classical logics applied to information and cognition.

Philosophy of communication.

Formal epistemology.

General logics of action, dynamic logic, logic of intentions and goals, game-theoretical frames.

Logics for social action, collective action, and cooperative action.

Probability logics, non-monotonic logics, and hybrid logics connected to KCA.

The history of logics of KCA.

Authors wishing to submit a paper should send by **June 25, 2010**, a 4-page (2000-2500 words) abstract, with no more than five keywords, and including separately notes and references at the end, by e-mail to the Secretary of the Program Committee (josebaxabier. arrasola@ehu.es). If selected for presentation, 15-20 pages papers should be submitted by September 4, 2010.

Papers will be blind peer reviewed, by the Program Committee. The Proceedings with the lectures, tutorials and contributed papers will be published by The University of the Basque Country Press, before the beginning of the Workshop.

IMPORTANT DATES

June 25, 2010

Deadline for Contributed Papers.

July 9, 2010

Notification of acceptance/rejection.

If selected for presentation

September 4, 2010

Deadline for Papers. (15-20 pages papers)

Registration

The Registration fee (including Proceedings) is 120 euro (70 euro for students) before **October 4, 2010**.
